

**Hamilton**health  
**Hamilton Medical Center**

August 5, 2014

To Whom It May Concern:

I am pleased to write a letter of reference for The Medicus Firm.

Hamilton Medical Center partnered with The Medicus Firm in the recruitment of several physicians for a very busy primary care practice. We have had the pleasure of working with Jamie Thomas, Regional Vice President. Jamie took the time to understand the specific needs of the physician practice and developed a very comprehensive profile to market the opportunity. He has been very effective in sourcing candidates and has presented many outstanding physicians for our review. Jamie does not waste my time with candidates who would not be a fit for our position as he understands exactly what we are seeking.

Jamie's responsiveness, professionalism and organization are assets that I experienced during the recruitment efforts. Based on our experience, I would encourage any hospital to work with The Medicus Firm to represent an organization's searches for quality physicians.

Please do not hesitate to let me know if you have further questions. I may be reached by email at [croy@hhcs.org](mailto:croy@hhcs.org).

Sincerely,

Corey Roy  
Physician Recruiter  
Hamilton Medical Center
