To Whom It May Concern:

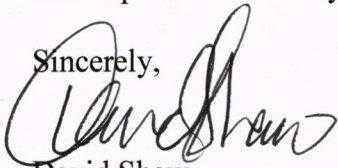

I am the CEO at Nor Lea General Hospital in Lovington, New Mexico and we began working with The Medicus Firm a little over a year ago to recruit a Family Practice Physician. From the inception of the search we have been nothing but impressed. Our recruiter, Evan Reece, is extremely knowledgeable, thorough, and efficient. Placing 4 high quality providers in rural New Mexico in such a short amount of time is quite an accomplishment and I would encourage anyone to work with Evan and his team at The Medicus Firm.

The first Family Practice candidate submitted was interviewed offered and accepted the position all within 100 days. After completing that search, we engaged TMF under the Multiple Search Agreement, and subsequently added two Physician's Assistants and another Family Practice Physician. All of the candidates were screened extremely well and knew everything there was to know about the opportunities.

We are currently working another Family Medicine and Physician's Assistant search, along with a Psychiatrist search and will continue to work with The Medicus Firm on future recruitment projects.

I highly recommend The Medicus Firm to any hospital or physician group interested in adding quality providers. They are truly a partner and an extension of our facility in the candidate marketplace. I am very happy that we chose them as our recruiting firm.

Sincerely,

David Shaw

CEO

Nor Lea General Hospital
