RE: Letter of Recommendation

I am pleased to write this letter of recommendation on behalf of The Medius Firm. I have worked with a variety of recruitment firms over the past several years and the results have been less than stellar. In November of last year we decided that we needed to partner with a recruitment firm that had a solid reputation in the industry and one that also provided proven results. We chose The Medicus Firm for this very reason and now our relationship with this firm continues to grow.

The results thus far have been excellent and we have been presented with a number of truly interested and qualified candidates for a number of our needs. We contracted them to assist us with several specialties which required them to not only understand the opportunities at St. Luke's Cornwall Hospital in Newburgh but also to meet and understand the needs of our outlying practices. Due to our partnership with The Medicus Firm we signed our first candidate this month and look forward to many more additions.

Their entire staff has done an excellent job. They all communicate well, are knowledgeable of the industry and present concise and comprehensive reports for me to present to our recruitment team and Administrative staff /CEO.

If you are a facility in need of a physician recruitment partner, I highly recommend you engage The Medicus Firm. You too will be highly impressed and thankful you did!

Sincerely,

Renee Christiano  
Director Physician Relations
